Jose Ramirez Mora
Staff Frontend Engineer

As a staff frontend engineer, my focus is on building web applications that are both performant and maintainable in the long term. My highest priorities are creating solutions that are user-friendly, high-quality, and high-performing. Additionally, I am passionate about cultivating a positive tech culture. I thrive on being challenged and enjoy taking on projects that push me beyond my current knowledge base to provide optimal solutions. I am a firm believer in continually expanding my education through online resources.
